3 BROAD-BASED BLACK ECONOMIC EMPOWERMENT [B-BBEE]

Transnet fully endorses and supports the Government's Broad-Based Black Economic Empowerment Programme and it would therefore prefer to do business with local business enterprises who share these

same values. Transnet will accordingly allow a "preference" to companies who provide a valid B-BBEE Verification Certificate. All procurement transactions will be evaluated accordingly.

3.1 B-BBEE Scorecard and Rating

As prescribed in terms of the Preferential Procurement Policy Framework Act (PPPFA), Act 5 of 2000 and its Regulations, Respondents are to note the following:

- Functionality is included at a pre-qualification stage with a prescribed percentage threshold of **80 (Seventy points)**.
- Proposals will be evaluated on price which will be allocated 80 or 90 points and preference which will be allocated 20 or 10 points, dependent on the value of the Goods or Services.
- The 80/20 preference point system applies where the acquisition of the Goods or Services will be less than R1 000 000.00.
- If the 80/20 preference point system is stipulated and all Bids received exceed R1 000 000.00, the RFQ will be cancelled.
- The 90/10 preference point system applies where acquisition of the Goods or Services will exceed R1 000 000.00
- If the 90/10 preference point system is stipulated and all Bids received are equal to or below R1 000 000.00, the RFQ will be cancelled.
- **In this RFQ, Transnet will use 90/10 preference point system prescribed in the PPPFA.**

In compliance with the Government Gazette No 34612, Notice No. 754 dated 23 September 2011, as from 1 October 2011 valid B-BBEE Verification Certificates must be issued by:

- (i) Verification Agencies accredited by the South African National Accreditation System [SASNAS]; or
- (ii) Registered Auditors approved by the Independent Regulatory Board of Auditors [IRBA], in accordance with the approval granted by the Department of Trade and Industry.

Enterprises will be rated by such agencies based on the following:

a) **Large Enterprises [i.e. annual turnover greater than R35 million]:**

Rating level based on all seven elements of the B-BBEE scorecard

b) **Qualifying Small Enterprises – QSE [i.e. annual turnover between R5 million and R35 million]:**

Rating based on any four of the elements of the B-BBEE scorecard

c) **Exempted Micro Enterprises – EME [i.e. annual turnover less than R5 million]:**

In accordance with B-BBEE Codes of Good Practice [Statement 000, Section 4], any enterprise with annual total revenue of R 5 million or less qualifies as an EME.

- Automatic rating of B-BBEE Level 4 irrespective of race or ownership
- Black ownership greater than 50% or Black Women ownership greater than 50% automatically qualify as B-BBEE Level 3

Sufficient evidence to qualify as an EME would be a certificate (which may be in the form of a letter) from an auditor or accounting officer or a certificate from a Verification Agency accredited by SANAS. The certificate must confirm the company's turnover, black ownership / black female ownership, B-BBEE status level and validity date.

Respondents are required to furnish proof of the above to Transnet. [i.e. a valid detailed scorecard as stipulated above in respect of Large Enterprises and QSEs, or a valid certificate in respect of EMEs].

Transnet will accordingly allocate a maximum of **10/20 [ten/twenty] points** in accordance with the **90/10** preference point system prescribed in the Preferential Procurement Policy Framework Act (PPPFA), Act 5 of 2000 and its Regulations to the Respondent's final score based on an entity's B-BBEE scorecard rating. [Refer **Annexure A- B-BBEE Preference Points Claim Form** for further details].

N.B. Failure to submit a B-BBEE certificate, which is valid as at the Closing Date of this RFP, will result in a score of zero being allocated for B-BBEE.

Returnable Document**SCOPE OF WORK (PROJECT SPECIFICATION)****1.0 INTRODUCTION**

Train crew working trains from origin to destination require hygienic sanitary equipment to use en-route their trips. These equipments should include sanitary waste bins. There are different types of toilet systems on board locomotives which train crew can use and that needs to always be cleaned and maintained.

The purpose of this document is to clarify the cleaning processes of the locomotive toilets and to spell out the disposal process for the sanitary pads to ensure that hygienically clean facilities are available to our train crew at all times.

1.1 Scope of Specification

This specification covers:

- 1.1.1 The requirements for the cleaning of the toilet and its cubicle, emptying the retention tank and refilling water into the tank.
- 1.1.2 Both chemical toilets and systems that incorporate a septic tank that are used on locomotives.
- 1.1.3 The provision, cleaning and the disposal of sanitary waste bins on locomotives.

1.2 Chemical Toilets System "Porta Potties"

- 1.2.1 There is continuous recycling of water, waste and chemicals therefore regular drainage and refilling is frequently required depending on the system capacity.
- 1.2.2 There must be a pool of Porta Potties available for the toilet cleaning team so that change out can take place on an exchange basis.
- 1.2.3 The Porta Potties can preferably be placed on the leading and the last loco.

1.3 Cleaning a Chemical Toilet System "Porta Pottie"

The cleaning operation should be performed in a demarcated area, at the service provider's site, with access to a sewage drain or a normal toilet and tap for water.

- 1.3.1 The toilet cleaning team unlocks the toilet using the unique keys.
- 1.3.2 Disconnect flush tank from the waste tank.
- 1.3.3 Empty waste tank into a sewage drain/toilet through the emptying spout. To ensure proper decanting swing the emptying spout outwards as per *figure 1.1*. When emptying, spout should be pointing downwards, depressed depress vent button to avoid splashing while waste is being disposed of.
- 1.3.4 The cleaning operation should be performed using soapy water and anti-bacterial cleaners.
- 1.3.5 While the toilet is being removed, the toilet cubicle should be cleaned with a mop. Each cubicle has a waste drain through which excess water can drain out of the cubicle.
- 1.3.6 The water tank should be re-filled with clean water at all times.

Returnable Document**1.4 Logistics Requirements**

- 1.4.1 The toilet has sufficient capacity to last up to 5 days of use; hence the cleaning process has to be performed on return (during trip inspection).
- 1.4.2 The toilet can easily be ferried by bakkie / Kombi should there be any incident. It can be moved through locomotive doors with ease. (See figure 1.2,)

1.5 Septic Tank Types System Toilet

The cleaning operation should be performed in the toilet inside the locomotive. (See figure 1.3)

- 1.5.1 The toilet cleaning team cleans the bowl walls inside-out using a brush.
- 1.5.2 The cleaning operation should be performed using soapy water and anti-bacterial cleaners.
- 1.5.3 The toilet cubicle should be cleaned with a mop. Each cubicle has a waste drain through which excess water can drain out of the cubicle.
- 1.5.4 The toilet cleaning team should gauge the water level in the locomotive tank and refill. The tank can take up to 100 litres and a single flush uses approximately 2 litres therefore the water can last up to 50 flushes.

1.6 Sanitary waste bins

- 1.6.1 Sanitary disposal unit should be provided in the leading and last locomotive. (See figure 1.4)
- 1.6.2 Sanitary bins should be emptied and cleaned sufficiently to prevent them becoming over-full and/or odorous.
- 1.6.3 Spray anti-bacterial fluid over bin and wipe clean.
- 1.6.4 Clean bottom (underside) of the bin.
- 1.6.5 Clean the floor area where the bin usually stands.
- 1.6.6 Sanitary waste should be disposed in a safe and hygienic manner adhering to all relevant legislation.

1.7 QUALITY ASSURANCE

- 1.7.1 Transnet Freight Rail shall nominate a quality Inspector according to different regions / depots who will take samples daily of cleaned locos and evaluate the quality.
- 1.7.2 Transnet Freight Rail and the respondent shall agree on quality deliverables that needs to be incorporated in the evaluation form.
- 1.7.3 Manuals can be provided by Transnet Freight Rail to the respondent if needed.
