5 BROAD-BASED BLACK ECONOMIC EMPOWERMENT AND SOCIO-ECONOMIC OBLIGATIONS

Transnet fully endorses and supports the Government's Broad-Based Black Economic Empowerment Programme and it is strongly of the opinion that all South African business enterprises have an equal obligation to redress the imbalances of the past.

Transnet would therefore prefer to do business with local business enterprises who share these same values and who are prepared to contribute to meaningful B-BBEE initiatives [including, but not limited to subcontracting and Joint Ventures] as part of their tendered responses. Transnet will accordingly allow "preference" points to companies who provide a B-BBEE Accreditation Certificate. All procurement transactions will be evaluated accordingly.

Consequently, when Transnet invites prospective suppliers to submit Proposals for its various expenditure programmes, it urges Respondents [*Large Enterprises and QSE's - see below*] to have themselves accredited in compliance with the Government Gazette No 34612, Notice No. 754 dated 23 September 2011. As from 1 October 2011 valid B-BBEE Accreditation Certificates must be issued by

- a) Verification Agencies accredited by the South African National Accreditation System [**SANAS**];
- or
- b) Registered auditors approved by the Independent Regulatory Board of Auditors [**IRBA**], in accordance with the approval granted by the Department of Trade and Industry.

A Verification Certificate issued must reflect the weighted points attained by the measured entity for each element of the scorecard as well as the overall B-BBEE rating.

5.1 B-BBEE Rating

Enterprises will be rated by Verification Agencies or registered auditors based on the following:

- a) **Large Enterprises** [i.e. annual turnover greater than R35 million]:
 - Rating level based on all seven elements of the B-BBEE scorecard
- b) **Qualifying Small Enterprises – QSE** [i.e. annual turnover between R5 million and R35 million]:
 - Rating based on any four of the elements of the B-BBEE scorecard
- c) **Exempted Micro Enterprises – EME** [i.e. annual turnover less than R5 million]:

- EMEs are exempted from B-BBEE accreditation
- Automatic rating of Level 4 B-BBEE irrespective of race or ownership
- Black ownership greater than 50% or Black Women ownership greater than 50% automatically qualify as Level 3 B-BBEE
- EME's should provide documentary proof of annual turnover [i.e. annual financials signed off by an accounting officer] plus proof of Black ownership if Black ownership is greater than 50% and/or Black Women ownership is greater than 50%

Respondents will be required to furnish proof of the above to Transnet. [i.e. a detailed scorecard as stipulated above in respect of Large Enterprises and QSEs, or proof of turnover in respect of EMEs].

N.B. Failure to do so will result in a score of zero being allocated for B-BBEE.

Turnover: Kindly indicate your entity's annual turnover for the past year:

R_____

All Respondents must complete and return the B-BBEE Preference Points Claim Form attached hereto as Annexure A.

5.2 Joint Ventures and Subcontractors

In addition to the above, Respondents who wish to enter into a Joint Venture with, or subcontract portions of the contract to, B-BBEE entities must state in their RFPs, the percentage of the total contract value that will be allocated to such B-BBEE entities, should they be successful in being awarded any business. A rating certificate in respect of such B-BBEE JV-partners and/or subcontractor(s), as well as a breakdown of the distribution of the aforementioned percentage must also be furnished with the RFP response to enable Transnet to evaluate in accordance with the processes outlined in the B-BBEE Preference Points Claim Form appended hereto as Annexure A.

Please note that a Respondent will not be awarded points for B-BBEE if it is indicated in its Proposal that such Respondent intends subcontracting more than 25% [twenty-five per cent] of the value of the contract to an entity that does not qualify for at least the same points that the Respondent qualifies for, unless the intended subcontractor is an EME with the capability to execute the contract.

5.3 B-BBEE Registration

In addition to the accreditation certificate, Transnet recommends that Respondents register their B-BBEE compliance and supporting documentation on the Department of Trade and Industry's [DTI] National B-BBEE IT Portal and Opportunities Network and provide Transnet with proof of registration in the form of an official B-BBEE Profile issued by the DTI.

Transnet would wish to use the DTI B-BBEE IT Portal as a data source for tracking B-BBEE compliance.

For instructions to register and obtain a DTI B-BBEE Profile go to <http://bee.thedti.gov.za>

5.4 Further Recognition Criteria

Transnet encourages its suppliers to constantly strive to improve their B-BBEE rating. Whereas Respondents will be allocated points in terms of a preference point system based on its B-BBEE scorecard to be assessed as detailed in paragraph 5.1 above, in addition to such scoring, a further

35% [thirty five per cent] will be allocated to a Respondent's score based on the "Further Recognition Criteria" [**FRC**] on an ascending scale. This will be calculated based on the extent to which the Respondent commits to meet and/or exceed the minimum compliance targets with its proposed target score to be achieved during the contract period.

Respondents are required to submit their Further Recognition Criteria with their Proposals. *[Refer Section 17 for further instructions]*

5.5 **Supplier Development Initiatives**

Historically in South Africa there has been a lack of investment in infrastructure, skills and capability development and an inequality in the income distribution and wealth of a significant portion of the population. There have been a number of Government initiatives developed to address these challenges. In particular, the New Growth Path [**NGP**] developed in 2010 aligns and builds on previous policies to ensure the achievement of Government's development objectives for South Africa.

Transnet fully endorses and supports Government's New Growth Path policy through its facilitation of Supplier Development [**SD**] initiatives. Hence Supplier Development Initiatives are a prerequisite for this RFP and are included in the Evaluation Criteria. *[Refer Section 18 for instructions]*

6 **COMMUNICATION**

Respondents are warned that a Proposal will be liable to disqualification should any attempt be made by a Respondent either directly or indirectly to canvass any officer or employee of Transnet in respect of this RFP between the closing date and the date of the award of the business.

Section 2: BACKGROUND, OVERVIEW AND SCOPE OF REQUIREMENTS

1 BACKGROUND

SF6 Gas Primary Circuit Breakers(PCB's) are being purchased to replace the old oil filled circuit breakers, other SF6 breakers or for new installations, as necessary.

2 EXECUTIVE OVERVIEW

Most Transnet Operating Divisions currently procure their Circuit Breakers through a number of service providers. Our objective is to source all activity through a Preferred Supplier(s) capable of servicing all Transnet Operating Divisions in locations around the country.

Transnet is seeking a partner(s) to provide solutions for its Primary Circuit Breakers nationally. It also seeks to improve its current processes for providing these Goods to its end user community throughout its locations.

The selected Supplier(s) will share in the mission and business objectives of Transnet. These mutual goals will be met by meeting contractual requirements and new challenges in an environment of teamwork, joint participation, flexibility, innovation and open communications. In this spirit of partnership, Transnet and its Supplier(s) will study the current ways they do business to enhance current practices and support processes and systems. Such a partnership will allow Transnet to reach higher levels of quality, service and profitability.

Specifically, Transnet seeks to benefit from this partnership in the following ways:

- 2.1 Transnet must receive reduced cost of acquisition and improved service benefits resulting from the Supplier's economies of scale and streamlined service processes.

RFP FOR THE SUPPLY AND DELIVERY OF HIGH VOLTAGE PRIMARY CIRCUIT BREAKERS FOR A PERIOD OF THREE YEARS ON AN AS AND WHEN REQUIRED BASIS

Section 13: SUPPLIER CODE OF CONDUCT

Transnet aims to achieve the best value for money when buying or selling goods and obtaining services. This however must be done in an open and fair manner that supports and drives a competitive economy. Underpinning our process are several acts and policies that any supplier dealing with Transnet must understand and support. These are:

- The Transnet Procurement Procedures Manual [**PPM**];
- Section 217 of the Constitution - the five pillars of Public PSCM [Procurement and Supply Chain Management]: fair, equitable, transparent, competitive and cost effective;
- The Public Finance Management Act [**PFMA**];
- The Broad Based Black Economic Empowerment Act [**B-BBEE**]; and
- The Prevention and Combating of Corrupt Activities Act.

This Code of Conduct has been included in this RFP to formally apprise prospective Transnet Suppliers of Transnet's expectations regarding behaviour and conduct of its Suppliers.

Prohibition of Bribes, Kickbacks, Unlawful Payments, and Other Corrupt Practices

Transnet is in the process of transforming itself into a self-sustaining State Owned Company [SOC], actively competing in the logistics industry. Our aim is to become a world class, profitable, logistics organisation. As such, our transformation is focused on adopting a performance culture and to adopt behaviours that will enable this transformation.

1. *Transnet will not participate in corrupt practices and therefore expects its Suppliers to act in a similar manner.*

- Transnet and its employees will follow the laws of this country and keep accurate business records that reflect actual transactions with and payments to our Suppliers.
- Employees must not accept or request money or anything of value, directly or indirectly, to:
 - illegally influence their judgement or conduct or to ensure the desired outcome of a sourcing activity;
 - win or retain business or to influence any act or decision of any decision stakeholders involved in sourcing decisions; or
 - gain an improper advantage.
- There may be times when a Supplier is confronted with fraudulent or corrupt behaviour of Transnet employees. We expect our Suppliers to use our "Tip-offs Anonymous" Hot line to report these acts [0800 003 056].

2. *Transnet is firmly committed to the ideas of free and competitive enterprise.*
 - Suppliers are expected to comply with all applicable laws and regulations regarding fair competition and antitrust.
 - Transnet does not engage with non-value adding agents or representatives solely for the purpose of increasing B-BBEE spend [fronting].

3. *Transnet's relationship with Suppliers requires us to clearly define requirements, exchange information and share mutual benefits.*
 - Generally, Suppliers have their own business standards and regulations. Although Transnet cannot control the actions of our Suppliers, we will not tolerate any illegal activities. These include, but are not limited to:
 - misrepresentation of their product [e.g. origin of manufacture, specifications, intellectual property rights];
 - collusion;
 - failure to disclose accurate information required during the sourcing activity [e.g. ownership, financial situation, B-BBEE status];
 - corrupt activities listed above; and
 - harassment, intimidation or other aggressive actions towards Transnet employees.
 - Suppliers must be evaluated and approved before any materials, components, products or services are purchased from them. Rigorous due diligence is conducted and the Supplier is expected to participate in an honest and straight forward manner.
 - Suppliers must record and report facts accurately, honestly and objectively. Financial records must be accurate in all material respects.

Conflicts of Interest

A conflict of interest arises when personal interests or activities influence [or appear to influence] the ability to act in the best interests of Transnet.

- Doing business with family members
- Having a financial interest in another company in our industry

Section 18: SUPPLIER DEVELOPMENT INITIATIVES

1.1 Aim and Objectives

Historically in South Africa there has been a lack of investment in infrastructure, skills and capability development and an inequality in the income distribution and wealth of a significant portion of the population. There have been a number of Government initiatives developed to address these challenges. In particular, the New Growth Path [NGP] developed in 2010 aligns and builds on previous policies to ensure the achievement of Government's development objectives for South Africa. Transnet fully endorses and supports Government's New Growth Path policy.

The key focuses of the NGP include:

- increasing employment intensity of the economy
- addressing competitiveness
- balancing spatial development of rural areas and poorer provinces
- reducing the carbon intensity of the economy
- creating opportunities in improving regional and global cooperation
- enabling transformation that benefits a wider range of social actors in society e.g. workers, rural communities, youth and women

Transnet, as a State Owned Company [SOC], plays an important role to ensure these objectives are achieved. Therefore, the purchasing of goods and services needs to be aligned to Government's objectives for developing and transforming the local supply base. Transnet's mission is to transform its supplier base by engaging in targeted supplier development initiatives to support localisation and industrialisation whilst providing meaningful opportunities for Black² South Africans with a particular emphasis on:

- Youth [16 to 35 year olds]
- Black women
- People with disabilities
- Small businesses
- Rural integration

1.2 Supplier Development [SD]

To facilitate the implementation of Supplier Development initiatives, Transnet has adapted an existing framework from the Department of Public Enterprises [DPE]. This framework allows for a basic set of principles to be applied to appropriately targeted SD initiatives. Supplier development initiatives aim to build local suppliers who are competitive through building capability and capacity. Hence the framework has been termed the Increased Competitiveness, Capability and Capacity Supplier Development Classification Matrix

² "Black" means South African Blacks, Coloureds and Indians, as defined in the B-BBEE Act, 53 of 2003

[**IC³ Matrix**]. Currently there are four quadrants of SD initiatives which Transnet considers according to the IC³ Matrix. This RFP has been identified as **strategic**, involving high commercial leverage and high value. Transnet's expectation is that a minimum SD target of 10% [ten per cent] of the Respondent's tendered value is offered as part of its SD initiatives to be submitted [the SD Bid Document].

Accordingly, Transnet requests all Respondents to submit a **Supplier Development Bid Document** demonstrating their commitment and support for the New Growth Path Policy and how an appointment in terms of this RFP would assist in achieving the NGP objectives.

- b) For a detailed understanding of the IC³ Matrix, the respective SD initiatives and their objectives, please refer to the "Guidelines for the Completion of a Supplier Development Bid Document" appended hereto as Annexure B.
- c) The following Supplier Development [**SD**] focus areas have been identified and are included in the prescribed evaluation criteria, namely:

Category	Description
New Skills development	Skills transfer & skills education which will occur as a result of the award of contract
Job Creation/Preservation	Number of jobs created or preserved resulting from the award of contract
Small Business Promotion	Encouragement for growth and the expansion of emerging local firms, through procurement and support mechanisms
Rural Integration and Regional Development	Incorporation of the use of rural labour and regional businesses which will contribute to NGP objectives

Green economy / carbon footprint: The potential reduction of the economy's carbon intensity [i.e. creation of a greener economy] should be regarded as a key priority within all the above SD Categories and for all proposed SD initiatives

- d) The **Supplier Development Bid Document** is to be submitted as a separate document, developed in line with the criteria set out in Annexure C [*Supplier Development Value Summary*] appended hereto. The Supplier Development Bid Document is a detailed narrative document explaining the Respondent's Bid value as summarised in Appendix C. There is no prescribed format for this document. This SD Bid Document will represent a binding commitment on the part of the successful Respondent. The SD Bid Document should outline the type of activities you intend to embark upon should you be awarded the contract. This Bid Document should also provide an overview of what you intend to achieve, when, and the mechanisms whereby you will achieve those objectives.

Annexure C must also be completed, indicating by cross-reference the detailed areas which have been addressed in your SD Bid Document for each of the evaluation criteria listed in paragraph 1.2 (c) above, together with the Value Indicators therefor.

Notes for completion of SD Bid Document:

- (i) Respondents are urged to pay careful attention to the compilation of the SD Bid Document [including Annexures B, C and C1] since this will form an essential component of the evaluation of your Proposal.

- (ii) Respondents are required to address each of the aspects under the detailed SD Description as a minimum for submission. This is not an exhaustive list however, and Respondents must not be limited to these choices when compiling each section.
- (iii) Please provide detailed calculations to illustrate how your estimated Rand values provided in Annexures B, C and C1 have been derived.
- (iv) Respondents are required to provide an electronic copy [CD] of the completed Annexures B, C and C1 as part of the SD Bid Document submission.

1.3 Additional contractual requirements

Should a contract be awarded through this RFP process, the successful Respondent(s) [hereinafter referred to as **the Supplier**] will be contractually committed, *inter alia*, to the following conditions:

- a) The Supplier will be required to submit a Supplier Development Plan within 45 [forty-five] days from the signature date of a Letter of Intent [**LOI**]. This SD Plan represents additional detail in relation to the SD Bid Document providing an explicit breakdown of the nature, extent, timelines and monetary value of the SD commitments which the Supplier proposes to undertake and deliver during the term of the contract. Specific milestones, timelines and targets will be recorded to ensure that the SD Plan is in line with Transnet's SD objectives and that implementation thereof is completed within the term of the contract.
- b) The SD Plan may require certain additions or updates to the initial SD Bid Document in order to ensure that Transnet is satisfied that development objectives will be met.
- c) The Supplier will need to ensure that the relevant mechanisms and procedures are in place to allow for access to information to measure and verify the Supplier's compliance with its stated SD commitments.
- d) The Supplier will be required to provide:
 - (i) monthly status updates to Transnet for each SD initiative. [Detailed requirements will be provided by Transnet];
 - (ii) quarterly status reports for Transnet and the DPE. [Detailed reporting requirements will be provided by Transnet]; and
 - (iii) a final Supplier Development report, to be submitted to Transnet prior to the expiry date of the contract, detailing delivery, implementation and completion of all SD components plus auditable confirmation of the Rand value contribution associated with each such SD commitment.
- e) All information provided by the Supplier in order to measure its progress against its stated targets will be auditable.
- f) The Supplier will be required to submit this SD Plan to Transnet in writing, within 45 [forty-five] days after signature of a Letter of Intent [**LOI**], where after both parties must reach an agreement [signed by both parties] within 20 [twenty] days. Transnet will reserve the right to reduce or increase the number of days in which the Supplier must submit its SD Plan if it is deemed reasonable, based on the degree of complexity of the SD initiative.
- g) The contract will be conditional on agreement being reached by the parties on the SD Plan submitted by the Supplier. Therefore failure to submit or thereafter to agree to the SD Plan within the stipulated timelines will result in the non-award of such a contract or termination thereof.

- h) Failure to adhere to the milestones and targets defined in an SD Plan may result in the invocation of financial penalties, to be determined at Transnet's discretion, which shall equate to the monetary value of any such SD initiative which the Supplier fails to deliver, as well as providing Transnet cause to terminate the contract in certain cases where material milestones are not being achieved.
