2.8 DIRECT DELIVERY INTIMATES DELIVERY BEING EFFECTED INTO THE WAREHOUSE OR THE ACTUAL POINT OF SUPPLY AND SHOULD THEREFORE INCLUDE ANY TRANSPORTATION MODE DEEMED NECESSARY IN EXECUTING THIS METHOD OF DELIVERY BASIS IN ORDER TO MEET THE REQUIRED DELIVERY DATE.

TAX CLEARANCE CERTIFICATES:

The Regulations in terms of the Public Finance Management Act, 1999: Framework for Supply Chain Management as published in Government Gazette No. 25767 dated 5 December 2003, Clause 9 (1) (d), stipulates that the accounting officer or accounting authority of an institution to which these regulations apply must reject any bid from a supplier who fails to provide written proof from the South African Revenue that the supplier either has no outstanding tax obligations or has made arrangements to meet outstanding tax obligations.

Tenderers will be disqualified if a valid tax clearance certificate or written proof from the South African Revenue Service that supplier has made arrangements to meet outstanding tax obligations is not submitted with the tender.

BROAD BASED BLACK ECONOMIC EMPOWERMENT (BBBEE)

Transnet fully endorses and supports the Government's Broad-based Black Economic Empowerment Programme and it is strongly of the opinion that all South African Business Enterprises have an equal obligation to redress the imbalances of the past. Transnet will therefore prefer to do business with local business enterprises who share these same values. Transnet will endeavour to do business with local business enterprises that possess a BBBEE "recognition level" of at least a level 5. Transnet urges Tenderers (large enterprises and QSE's - see below) to have themselves accredited by any one of the various Accreditation Agencies available who do their BBBEE ratings in accordance with the latest Codes (i.e. those promulgated on 9 February 2007) and whose names appear on the present ABVA (Association of BEE Verification Agencies) - "List of Full Members" as displayed on the ABVA website (www.abva.co.za).

Although no agencies have, as yet, been accredited by SANAS (SA National Accreditation System), Transnet will, in the interim, accept rating certificates of tenderers who have been verified by any of the listed agencies.

Enterprises will be rated by such agency based on the following:

1. Large Enterprises (i.e. annual turnover >R35million:
" Rating level based on all seven elements of the BBBEE scorecard.

2. Qualifying Small Enterprises - (QSE) (i.e. annual turnover >R5million but <R35million:
" Rating based on any four elements of the BBBEE scorecard.

NB:

3. Emerging Micro Enterprises - (EME) (i.e. annual turnover <R5m) are exempted from being rated/verified:

BOARD LIST
TRANSNET FREIGHT RAIL
PROCUREMENT DEPARTMENT

" Automatic rating of Level 4 BBBEE irrespective of race of ownership, i.e. 100% BBBEE recognition
" Black ownership >50% or Black Women ownership >30% automatically qualifies as Level 3 BBBEE, i.e. 110% BBBEE recognition
" EME's should provide certified documentary proof of annual turnover (i.e. audited financials) plus proof of Black ownership if Black ownership >50% or Black Women ownership >30% from the EME's Auditor/Accounting Officer.

4. In addition to the above, Tenderers who wish to enter into a Joint Venture or subcontract portions of the contract to BBBEE companies, must state in their tenders the percentage of the total contract value that will be allocated to such BBBEE companies, should they be successful in being awarded any business. A rating certificate in respect of such BBBEE JV-partners and / or sub-contractor/s, as well as a breakdown of the distribution of the aforementioned percentage must also be furnished

In view of the high emphasis which Transnet places on Broad-based Black Economic Empowerment, Transnet will allow certain preference points for BBBEE in the evaluation of all responses. Depending upon the value of the ensuing business award (i.e. below or in excess of R2m), the 80/20 or 90/10 point preference system will be utilized where BBBEE will count out of 20 or 10 respectively in the evaluation process.

EACH RESPONDENT IS REQUIRED TO FURNISH PROOF OF THE ABOVE TO TRANSNET. FAILURE TO DO SO WILL RESULT IN A SCORE OF ZERO BEING ALLOCATED FOR BBBEE

Turnover: Kindly indicate your company's annual turnover for the past year R_____

" If annual turnover <R5m, please attach certified confirmation from your Auditor/Accounting Officer
" If annual turnover >R5m please attach original or certified copy of accreditation certificate and detailed scorecard by an ABVA accreditation agency (registered as a "Full Member")

PAYMENT TERMS

The following payment terms will apply as from 1 October 2008.
" All suppliers will be paid 30 days from receipt of month end statement, i.e. payment term F055.

CONDITIONS:
This quotation is subject to the provisions of the Standard Terms and Conditions of Contract, Form US7, (Latest) and the General Tender Conditions, Form CSS5 (Latest) and any other standard or special conditions mentioned and/or embodied in the quotation request.

SCHEDULE OF REQUIREMENTS

PRICES TENDERED ARE TO BE "DIRECT" AND EXCLUDE VAT.

IN THIS REGARD THE TENDERER'S ATTENTION IS DIRECTED TO PARAGRAPH 16 OF FORM CSS5 (LATEST).

TRANSNET FREIGHT RAIL | PROCUREMENT SPECIFICATION

ESD AMS872 AUDIO MEASURING SET

"PREVIEW COPY ONLY"

- The Audio Measuring Set was designed to be a low cost, portable, compact test set which can perform all the tests necessary for quick location of a fault on a transmission line.
- The set is an oscillator, line monitor, level meter, frequency meter and intercom all built into one small unit.
- The transmitter is an oscillator with the frequency variable from 30Hz to 19 990Hz and the output level adjustable from +6dBm to -50dBm.
- The output is via a balanced amplifier with an output impedance of Zero, 900 and 600 ohm.
- The output level and frequency can be measured direct on the level and frequency displays by means of a switch on the front panel.
- The receiver measures the input level via a balanced input amplifier which has either an input impedance of 600, 900 or >30 000 ohm selected by a switch on the front panel.
- The frequency range is 30Hz to 20 000Hz.
- The display is direct reading in dBm auto ranging from +10dBm to -90dBm and gives a true RMS. measurement.

- The unit can be used to measure the noise level of a circuit as the unit reads down to -90 dBm which is 0 dBrn.

- A 3kHz low pass filter may be switched in on the input circuit which rejects frequencies above 3kHz.

- The frequency meter indicates the frequency of the received signal in the level range of +10 to -50 dBm.

- The receive signal can be audibly monitored with the level adjustable over a wide range by the volume control on the front panel.

- If one unit is used at each end of a circuit they can be used as a simplex intercom which enables the technicians to communicate while they are carrying out the testing on either a 2-wire or a 4-wire system.

- Testing of either 2-wire or 4-wire systems may be selected by a selection switch on the front panel.

- The terminals are 5 screw-type 4mm banana sockets.

- Two balanced output, two balanced input, which also act as output for 2-wire operation, and a green earth socket.

- The unit is battery or mains powered with rechargeable batteries and a "Battery Low" indicator.

- The unit is housed in a rigidized aluminum case which has room for

"PREVIEW COPY ONLY"

storage of the mains lead.
