### 1 Responses to RFQ

Responses to this RFQ [**Quotations**] must not include documents or reference relating to any other quotation or proposal. Any additional conditions must be embodied in an accompanying letter.

### 2 Broad-Based Black Economic Empowerment [B-BBEE]

Transnet fully endorses and supports the Government's Broad-Based Black Economic Empowerment Programme and it would therefore prefer to do business with local business enterprises who share these same values. As described in more detail in the attached B-BBEE Claim Form Transnet will allow a "preference" to companies who provide a valid B-BBEE Verification Certificate.

The value of this bid is estimated to be below R1 000 000 (all applicable taxes included) and therefore the **80/20** system shall be applicable.

Respondents are required to complete Annexure A [the B-BBEE Preference Point Claim Form] and submit it together with proof of their B-BBEE Status as stipulated in the Claim Form in order to obtain preference points for their B-BBEE status.

**Note: Failure to submit a valid and original B-BBEE certificate or a certified copy thereof at the Closing Date of this RFQ will result in a score of zero being allocated for B-BBEE.**

#### 2.1 B-BBEE Improvement Plan

**2.2** Transnet encourages its Suppliers/Service Providers to constantly strive to improve their B-BBEE rating. Whereas Respondents will be allocated points in terms of a preference point system based on its B-BBEE scorecard to be assessed as detailed in paragraph 2.1 above, in addition to such scoring, Transnet also requests that Respondents submit a B-BBEE improvement plan. Respondents are therefore requested to indicate the extent to which they will maintain or improve their B-BBEE status over the contract period. Respondents are requested to submit their B-BBEE Improvement Plan as an additional document with their Proposals by completion of Annexure A appended hereto.

## 15 B. PROJECT SPECIFICATION

### B1 SCOPE

- B1.1 The scope of the work covers the dismantling of high risk trees within the rail reserve on either side of the railway line(s), excluding yard areas in the geographical area under responsibility of the Nelspruit. (Refer to the Schedule of Quantities for further information.)
- B1.2 **Certain protected plant species and desirable plants are not to be controlled or removed and this plant material will be identified by the Manager or his/her deputy) prior to the start of the Contractor's program where applicable.**
- B1.3 This part covers the techniques, types and use of spraying equipment, required standards of workmanship, inspections, measurement, payment, and acceptability of the works in respect of the control of vegetation required in terms of the contract.
- B1.4 The essence of the contract is that Transnet Freight Rail requires vegetation to be brought under control and maintained at a certain standard as specified, for the duration of the contract period.
- B1.5 The ways and means by which the above-mentioned results are obtained are the responsibility of the Contractor. Transnet Freight Rail, however, shall have the right to monitor the materials and activities of the Contractor to ascertain that all procedures and herbicidal applications are in accordance with his/her tender, the relevant legislation and are conducive to the achievement of long term control of vegetation. Such right of monitoring shall be entirely without prejudice to Transnet Freight Rail and shall in no way relieve the Contractor of his/her responsibility for satisfactory control of vegetation.
- B1.6 Failure to comply with the minimum performance proposed by the Contractor in his/her tender may form the basis for non-payment for work done, pending the achievement of control as defined and/or termination or cancellation of the contract.

### B2 DEFINITIONS

#### B2.1 CONTROL

Control is achieved when;

- High risk trees have been cut back to a height of 0.3 metre and that the remaining stumps cease to exist as living organisms or entities,
- No new growth on cut stumps occur,
- All cut, dead or dry remains of any vegetation within the treated area are completely removed from Transnet Freight Rail property, or to sites designated on Transnet Freight Rail property by the Manager or his/her deputy,
- All branches of plants, outside the area to be controlled, which protrude or hang over into the area to be controlled, are removed.

- B2.1.2 Declared weeds means category 1 plants and declared invader plants means category 2 and 3 plants proclaimed under the Conservation of Agricultural Resources Act, Act No. 43 of 1983, including amendments (GN Regulation 1048 of 25/05/1984 amended by GN Regulation 280 of 30/03/2001) thereto.

#### B 2.2 WORK AREA

Refer to Schedule of Quantities.

### B2.3 WORKLOTS

For the purpose of this contract trees will be measured individually according to their diameter. (See Schedule of quantities.) The contractor must ascertain the risk factor in felling the trees specified in the Schedule of Quantities prior to submitting a tender document for this work.

In the event that chipping of smaller branches be required this chipping will be measured per cubic metre chipped.

## B3 METHOD OF VEGETATION CONTROL

B3.1 The Contractor's methods and program shall provide rapid and effective control in all areas. Techniques, programming and chemicals employed shall therefore be directed at this aim. The Contractor shall carry out immediate action to control growth in all instances where rapid and effective control is not achieved during any period of the contract.

B3.3 Burning and hoeing ("Skoffeling"), of plant material will not be allowed as a method of control. Herbicides, which act as a scorching agent (e.g. with Paraquat or similar active ingredients) shall not be used.

B3.4 Any deviation from the method of work submitted as per clause A12.1 by the Contractor shall be subject to the approval of the Manager.

B4.1.3 There must be no cut, dead, or dry remains of any vegetation within the treated area. In instances where the Contractor is allowed to stack vegetative material elsewhere in the rail reserve, this material will be neatly stacked according to the requirements of the Manager.

### B4.2 OVERALL CONTROL

B4.2.1 The overall standard of control to be achieved by the Contractor over the contract area, defined as "Overall Control" and expressed as a percentage, will be determined by application of the following formula;

$$\text{Overall Control} = \frac{(\text{No. of trees controlled} - \text{No. of trees rejected})}{\text{No. of trees controlled}} \times 100$$

B4.2.2 The minimum percentage of the total work that shall comply with the standard of control, shall be 80%. This measurement will be applicable for each inspection carried out during the term of the contract.

B4.2.3 Failure by the Contractor to achieve the standard of "Overall Control" shall enable the Manager to terminate the Contract in terms of the Transnet General Conditions of Contract.

## **B5 PROGRAMME OF WORK**

B5.1 The Contractor shall undertake the planning and programming of the entire vegetation control operation and shall submit to the Manager for approval full particulars thereof within 2 weeks from the date of notification by Transnet Freight Rail.

- identifying any damage or hazards which may have been caused by the vegetation control operation, and
- planning of timeous execution of remedial work where control is not being achieved.

B5.4 In addition to the program provided for in terms of B5.1, the Contractor shall submit daily working programs to the Manager, 7 days in advance of the next working week, indicating the specific areas where the Contractor will be working each day of the week. Failure by the Contractor to submit a daily program and/or deviating from it without notifying the Manager, preventing him/her from monitoring the Contractor's performance, may result in payment for such work being withheld.

## **B6 PERFORMANCE MONITORING AND EVALUATION**

B6.1 The Contractor shall at all times be responsible for supervision of the work and for follow-up inspections to monitor the successful control achieved over areas of completed application. He/she shall immediately take appropriate remedial action in areas where the specified standards of control are not achieved.

B6.2 The Manager shall at any time during the operation carry out inspections of the Contractor's performance methods and procedures. He/she may at any time take samples of the chemicals applied

- B6.3.2 The second inspection will take place at or within 1 week after the date of notification by Transnet Freight Rail and will be evaluated on the specified level of control as described in B2.1.

- B6.3.4 During each of these inspections the area treated will be measured and evaluated. Any area, measured in square metre, which does not comply with the specified level of control, will be recorded as rejected work.

- B6.4 The rejection of work that does not comply with the standard of control will be final and valid for that inspection.

The rejection by the Manager of work performance may be contested by the Contractor only at the time and place of rejection.

The rejection of work at a particular inspection shall remain final for that inspection for payment purposes, notwithstanding the fact that the Contractor may execute further remedial work in order to achieve control at further and final inspections.

- B6.5 In the case where the Manager and the Contractor fail to agree on rejected work, the rejected work shall be recorded as a "disputed work". The Contractor shall prepare an appropriate record of all disputed work in order that such disputes may be resolved by way of the disputes resolution procedures stipulated in the Transnet General Conditions of Contract.

The rates and prices tendered in the Schedule of Prices are composite and shall be fully inclusive of all the Contractor costs in respect of establishment on site, labour, materials consumables, Head Office overhead costs, the Contractor's profit, for all delay and consequential costs and for everything of whatever nature required of the Contractor for completion of the work included in the Contract.
