3 Broad-Based Black Economic Empowerment [B-BBEE]

Transnet fully endorses and supports the Government's Broad-Based Black Economic Empowerment Programme and it would therefore prefer to do business with local business enterprises who share these same values. Transnet will accordingly allow a "preference" to companies who provide a valid B-BBEE Verification Certificate. All procurement transactions will be evaluated accordingly.

3.1 B-BBEE Scorecard and Rating

As prescribed in terms of the Preferential Procurement Policy Framework Act (PPPFA), Act 5 of 2000 and its Regulations, Respondents are to note that the following preference point systems are applicable to all bids:

- the 80/20 system for requirements with a Rand value of up to R1 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R1 000 000 (all applicable taxes included).

- Bidders are to note that if the 80/20 preference point system is stipulated in this RFQ and all Bids received exceed R1 000 000.00, the RFQ must be cancelled. Similarly, if the 90/10 preference point system is stipulated in this RFQ and all Bids received are equal to or below R1 000 000.00, the RFQ must be cancelled.

The value of this bid is estimated to be above R1 000 000.00 and therefore R1 000 000.00 (all applicable taxes included) and therefore the **90/10** system shall be applicable. When Transnet invites prospective suppliers to submit Proposals for its various expenditure programmes, it requires Respondents to have their B-BBEE status verified in compliance with the Codes of Good Practice issued in terms of the Broad Based Black Economic Empowerment Act No. 53 of 2003.

The Department of Trade and Industry recently revised the Codes of Good Practice on 11 October 2013 [Government Gazette No. 36928]. The Revised Codes will replace the Black Economic Empowerment Codes of Good Practice issued on 9 February 2007. The Revised Codes provide for a one year transitional period starting 11 October 2013. During the transitional period, companies may elect to be measured in terms of the Revised Codes or the 2007 version of the Codes. After the first year of the implementation of the Revised Codes, B-BBEE compliance will be measured in terms of the Revised Codes without any discretion. Companies which are governed by Sector-specific Codes will be measured in terms of those Sector Codes.

As such, Transnet will accept B-BBEE certificates issued based on the Revised Codes. Transnet will also continue to accept B-BBEE certificates issued in terms of the 2007 version of the Codes provided it was issued before 10 October 2014. Thereafter, Transnet will only accept B-BBEE certificates issued based on the Revised Codes.

Note: Failure to submit a valid and original B-BBEE certificate or a certified copy thereof at the Closing Date of this RFQ will result in a score of zero being allocated for B-BBEE.

[Refer clause 20 below for Returnable Documents required]

16 LAW

Orders shall be governed by and interpreted in accordance with South African law and any disputes arising herein shall be subject to South African arbitration under the rules of the Arbitration Foundation of South Africa, which rules are deemed incorporated by reference in this clause. 2. DESCRIPTION OF THE WORK AND PROCESS

- 2.1. **Working Days:** will be between 06:00 to 18:00, over the 10 - day shutdown period.
- 2.2. **Occupation:** will be done on a **total Occupation** basis for the duration of the Manganese Flow Shutdown. Any changes to the type of occupation (i.e. Occupation between Trains) will be communicated to the Contractor in advance.
- 2.3. TFR will provide reference pegs beforehand for the correct positioning of turnouts in the track. The contractor will be held responsible for any disturbances of these pegs during the construction period; it will therefore be his responsibility to make a sure that the pegs are referenced before commencement of construction.
- 2.4. All components of the new turnout sets, that are all sleepers, rail components and fastenings, will be stacked at a dedicated laydown area at the stations. It will be the contractor's responsibility to transport all materials from the lay down area to the work site.
- 2.5. Area where turnout is to be built and ballast to be stockpiled, must be level.
- 2.6. During the total occupation the whole panel of 42m, i.e. the whole set and the adjacent approaches shall be removed, to a position out of the way of the operations.
- 2.7. The ballast on the whole panel shall be removed to stockpile and new ballast shall be spread back into position to form a uniform layer of clean ballast about 250mm thick. Additional ballast required can be offloaded from AY trucks available from the Client.
- 2.8. The new turnout shall be prebuilt in its entirety or alternatively in sections to suit local conditions. The positioning of the sleepers and steel components of the new turnout set must comply with the dimensions as indicated on the design drawing which will be made available to the Contractor. The turnout shall then be shifted on skid rails to its final position on the prepared ballast bed. Alternatively, sets can be built in situ.
- 2.9. The adjoining tracks shall be slewed where necessary (where turnout joins up with loop).
- 2.10. The new turnout and adjacent panels shall then be lifted and aligned and the ballast boxed in, as per TFR standards and specifications.

- 3. SPECIFIC REQUIREMENT**
- 3.1. As per Clause 5.1 of the E5 (MW) (Nov 1996) the risk associated with normal weather (rain, high or low rail temperature) is with the contractor.
- 3.2. Occupations are not always granted on time as requested and approved. For example, instead of granting the occupation at 06H00 as requested and approved, due to train operational reasons, some delays occur, resulting in production work being slipping into the warmer part of the day. The risk of obtaining suitable rail temperature shall in such cases rest with the Contractor. The waiting time on site before occupations are granted shall not be considered a basis for a claim for Standing Time.
